

REMARKS:

The typographical errors on page 3, lines 1 and 12 of the specification, are being corrected as in the parent application. Similarly, on page 13, line 15, the numeral label for the strobe line is being changed to - 173- - to avoid conflict with that for the I-to-f converter 172.

The missing labels in Fig. 1 and Fig. 5, are being corrected by submission of two sheets of revised drawings. Also in Fig. 5, the label for the strobe line is being changed to - 173- -.

The amendments to the specification and the drawings are in conformity with that made in the parent applications, which have now issued as United States Patent No. 6,044,019, 6,282,120, 6,490,200 and about to be issued Application No.10/290,558. No new matters are believed to have been introduced.

Claims 13-19 are being canceled.
